**ALLERGY TESTING**

- No antihistamines, tranquilizers, sleep-aids, aspirin or aspirin products or pain killers 1 week before testing.
- You may take an aspirin free product such as Tylenol.
- No Claritin 3-4 weeks before test.
- Please refrain from getting sunburnt on your back before testing.

Testing will performed on your back and arms, therefore a two-piece outfit may be more comfortable and convenient for you.

**Please allow at least 1 hour for testing.**
